

Department of Zoology

The Department of Zoology had its initial inception in year 2001 as an offshoot of the Government Degree College Pulwama with an aim to inculcate the quality education to undergraduate students regarding the animal sciences. The Department has well qualified, experienced and highly energetic teaching faculty. Our didactic aims on basic and applied fields of Zoology aided with models, charts, videos, demos etc.

The Department has the goals of producing research aptitude among learners in various fields of Zoology like Aquatic Biology, Wildlife, Entomology, Ichthyology, Developmental Biology, Immunology, Physiology and Applied Zoology (Apiculture, Aquaculture and Sericulture). The Department offers study courses like B. Sc with Zoology as one of the major subject and offer opportunities and encourage the students for perusing the higher education in many job oriented fields. Further, the students have an opportunity to study other subservient fields like Animal Biodiversity, Biochemistry, Cell and Molecular Biology etc. Feel free and join the Department of Zoology for better understanding of animal world.
