WORKSHOP ON 'VIRTUAL LABS'

A) Event Statistics

- No. of Participants: 33
- Target Group: Undergraduate Students of Biotechnology
- Resource Person: Dr. Mushtaq Ahmad Tantray (Assistant Professor, Chemistry, GDC Pulwama)
- Organizer: Dept. of Biotechnology, GDC Pulwama
- Venue: Innovation and Incubation Centre
- Date: 18/12/2023

B) Brief Report

The workshop started with a brief introduction by Dr. Shah Ubaidullah (Assistant Professor, Biotechnology) who deliberated on the idea and need for virtual laboratories in today's context. Thereafter, Dr. Mushtaq Ahmad Tantray, Nodal Coordinator VLABS, the resource person for the workshop, explained the main motive of the virtual laboratories and their benefits to the students. He said, "Virtual Labs project is a mission mode project of the Ministry of Education, GOI under the aegis of National Mission on Education through Information and Communication Technology (NMEICT), which provides a free, laboratory learning experience to students through remote experimentation." He explained to the students that Virtual Labs not only provide a platform for experiments but more importantly, the real-time feel of an experiment as being conducted in a laboratory. He demonstrated to the students how to access Virtual Labs and the different types of information given in different tabs pertaining to a particular experiment. The students were directed to go through the different experiments related to their courses of study and then submit the feedback as this will help the developers to make Virtual Labs more effective and realistic. In his concluding remarks, Dr. Mohd Ashraf Khan (HoD, Biotechnology) thanked the resource person and advised students to take full advantage of this facility from the comfort of their homes.
